

The cornerstone of our approach to the ongoing threat of coronavirus Covid-19:

**Limit the risk of entry of the virus into our building.
Reduce the risk of anyone passing on the virus to another.**

WE WILL

- Comply with government's guidance on managing the risk of Covid-19
- Conform to best practice for our business sector
- Have our risk assessments independently assessed and reviewed by an external expert
- Work with productions to keep their staff safe on our premises
- Inform and educate our staff and customers to follow all guidelines and best practice
- Continually review our environment and our processes to ensure current best practice. We will monitor, record and review.

We will achieve this by working together co-operatively, to ensure harmony in protocols and to resolve issues promptly. We will unflinchingly demand the fullest co-operation of our staff and customers. Safety for all will only be possible when there is personal responsibility for following employers' guidelines and those of the place being visited. This applies to our staff and our visitors.

Angels is providing a service with the minimum disruption to our customers so that our guidelines become unobtrusive and automatic. We are in the costume hire business, not the infection business. We have the resources and space to minimise the impact on our customers so that they can continue to work easily and safely in our premises.

Our premises are large, allowing relatively free movement for everyone in all areas and we have exclusive spaces reserved for our customers where they can work safely. Key Points:

- Lots of space
- Unobtrusive protocols
- Easy access
- Easy to work
- Additional resources.

How have we achieved this?

WHAT WE HAVE DONE

- Conform to best practice for our industry sector
- Engaged with Industry organisations such as BECTU, BFI, BFC, DCMS, CBI as well as production companies and studios to assist with formulating best practice and policy
- Full risk assessment of premises and working practices
- Fitted Perspex barriers and screens
- Installed a non-contact temperature measurement device
- Signs to remind and reinforce safety measures
- Created protocols, guides and training for staff
- Sourced face coverings, face shields and gloves for our staff where appropriate
- Created protocols, procedures and guides for visitors
- Increased general cleaning provision

WHAT WE PROVIDE

- A Covid-safe environment in which our customers and staff can work easily and efficiently
- Large, well-ventilated warehouse: 100% air change every hour without recirculation
- Covid testing facilities and access to on-site nursing team
- Secure quarantine areas for costumes after fittings/returns
- Handheld UV sanitising wands that can safely sterilise costumes and accessories to eliminate bacteria, viruses, and allergy causing contaminants
- Ozone cabinets
- Provision of alcohol gel dispensers at all entrance/exit point to the building, and to the warehouse
- Sanitising Stations (with alcohol gel and antibacterial wipes) in common areas throughout the building
- Face coverings and gloves for fittings

Angels Costumes is the perfect place to visit with an enviable range, depth and quality of costume. Our professional team have been trained to work in harmony with your production, making your task easier. We have taken the concern out of working during these challenging times, by providing a Covid-safe environment that is easy to navigate.
